Where is the Comet?

According to scientific observation and calculation an event was to have occurred on the 12th, which would have created a sensation more exciting everywhere than a circus in an inland village. A learned professor so profound that all sublunary things were too simple and superficial to exercise his colossal brain, extended his mental vision into the skies-far away into the skies; and beholding there a flaming comet, with a head like a fire-mountain, eyes like blazing suns, and a tail ten thousand miles long and full of burning brimstone, and all sorts of "spitting devils," he announced to all the world, and "the rest of mankind," that on the 12th of August, 1872, this little be "busted" as wide open as a water tank hit by a locomotive, and scattered into Counterfeiters Arrested .- Two nothingness as effectually as a nest of eggs been run into by that rash and rushing comet that was bearing down upon us when of the country knows anything about it .-There may have been a collision somewhere, though, and we suspect there was; for science is wonderfully truthful, especially in telling us to "look out, there's a comet coming." JUDGE BLACK'S LETTER. THE POLITICAL SITUATION.

To William II. Welsh, Esq., Editor of the Baltimore Gazette: MY DEAR SIR; I promised the gentle-man who delivered your letter that I would answer it fully and as soon as I could consistently with other engagements. I am fulfilling that promise. If I take more time and space than might be expected, you will please to remember that I and a great many other Democrats are in a position which requires something more than a mere definition. We cannot avoid misconstruction without furnishing a rather

full explanation. I admit that the next President must be Grant or Greeley. The circumstances of the political situation limit our choice to these two men, as strictly as if nobody else were legally eligible. We must weigh them against one another, and, like practical men, decide the case before us in favor of the best. Even if we find no good in either of them, we must take that one who shall appear to be least bad.

It is undeniable that the leading measures of this Administration are not only diabolical outrage took place at the Mayor's unconstitutional, but anti-constitutional, showing not merely a contemptuous indifsettled hostility to those rights of the State, and those liberties of the people which the organic law was made to secure. J. Curtis was solemply and impresecutive branch, the tide of corruption rolls in upon the Legislature, and in some come debauched, let us hope not altogether, but certainly in a fearful degree. Acts which in former times a hardened criminal would hesitate to whisper in the ear of his accomplice can now be openly advocated by a political leader, not only with safety, but with a tolerable chance of being sustained by a sort of public opinion. That love of liberty and justice which used to pervade the whole community now "reneges all temper," and yields without resistance to the unprincipled demagogues who would enthrone fraud.

"Make the boar leprosy adored; place thieves And give them title, knee and approbation, With Senators on the bench.' If General Grant had been equal in a great public benefactor. He might have purified official and political morals by simply setting the example in his own person of a clean-handed devotion to duty. Unfortunately the interests of certain rings were in conthey, by large presents, seduced him into, their service. Now, as to Greeley. It cannot be pretended that his political life is very symaddressed in a most happy manner by metrical. He was in the ranks of the years. That is bad; for such associations would have a natural tendency to debase him. But we must not forget that, though he was with them, he was not always of them. He refused to be a partaker in their worst iniquities; he had none of their diabolical hatred for the Constitution; he did not lend his lips to their rabid blasphemies, and his feet were never swift in running to shed innocent blood. Before the great conflict began, his opposition to the designs of the Abolitionists against the Federal and State governments, impelled him to the epposite heresy of the secessionists. Like the Roman father, who killed his daughter to save her from a worse fate, he chose to destroy the Government rather than see it dishonored and violated by lawless force. When the war was flagrant, he provoked the extremest rage of his associates by exerting himself for a peace which would have left all the people in possession of their constitutional liberties. After the close of the contest he was the advocate of regular and legal, as well as honest government for all parts of the country. I have good authority for saying that he never gave his approval to any form of kidnapping, or marder, by military commission. In short, although he did join the Abolitionists in their "devil's dance," he never learned to keep step with his partners, and we all know that when

he could not stop it, he left it, and denounced it with becoming indignation. On another point he ought to have credit. The friends of religious freedom owe him an old debt of gratitude for the zeal and ability with which he resisted the church-burners when banded together in the secret lodges of the Know-Nothing orhis opposition saved the country from the subjugated by that infamous organization.

> Speech of Mr. Greeley at Portland. PORTLAND, Aug. 15.

The following is the address of Mr. Greeley in the City Hall yesterday : Mr. Chairman and Ladies and Gentlemen It is certainly true that throughout the course of my life, so far as I have been connected with public affairs, I have struggled, with such capaty as God has given me, for, first, impartial and universal liberty; second, for the union and greatness of our common country, and third, and by no means least, when the former end was attained, for early and hearty recon ciliation and peace among our countrymen For this great end I have struggled, and hope the issue of the third is not doubtful. I thoroughly comprehend that no personal consideration has drawn this yast assembly together .-Other higher and grander considerations have offected you around me to-day. It is part of the unwritten law of our country that a candidate for the Presidency may not make speeches in vindication and commendation of the principles whereupon he is supported, or the measures which his election is intended to promote—though a candidate for the Vice Presidency is, under no such inhibition. I not merely acquiesce in the restriction, I recognize and afform its propriety. The temptation to nisinterpret and misrepresent a candidate for this higher post is so great, the means of circulating such perversions among people who never see a word of their refutation are so vast. that a candidate has no moral right to subject

his friends to the perils he must brave, if not invite, by taking part in the canvass. I never yet heard of a man who invited his neighbors to help him raise a house and proceeded to kick them out of it so soon as the roof was fairly over his head. For my own part, I recognize every henest man who approves and adheres to the Cincinnati platform as my political brother, and, as such,

I answer, no man or woman, in all the South, ever ask d of me, either directly or through another, any other pledge than is given in all my acts and words. From the hour of Lee's surrender down to this moment, Southern rian ever hinted to me an expectation, hope or wish, that the Rebel debt, whether Confederate or State, should be assumed or paid by the Union; and no Southern man, who could be elected to a Legislature or made a Colonel of a militia regiment, even sug gested the pensioning of all the Rebel soldiers, or any of them, even as a remote possibility. And the hope that my election may histen the much desired hiegira of thicking carpet-baggers, has reconciled to the necessity of supporting me many who would otherwise have hesitated and probably remsed. Fellow citiz us, the deposed Tammany Ring has stolen about \$50,000,000 from the .ny of N w York. That was a most gigantic robbery, and hurled its contrivers and abettors from power and splendor to impotency and infamy. But the thicking carpet-baggers have stelen at least three times that amount stolen it from people already impoverished and needy; and ney still flaunt their prosperous villany in the righest places of the land, and are addressed as onorable and Excellency.
